

How the Program Works

You want an education that works for you. We get it. That's why Grace College and Christian University GlobalNet (CUGN) from Our Daily Bread Ministries have partnered together to present a new accredited associate degree.

Students apply to Grace College for the Associate of Science in Ministry Leadership degree. Once a student is accepted into Grace College's Ministry Leadership program, the student will be registered in the first of 14 courses. Each Grace College course is built around CUGN course content and other learning resources and activities. Each Grace course includes 1-6 CUGN courses (usually 2 or 3 courses).

The degree uses content from CUGN, a partner of Our Daily Bread Ministries. For an affordable monthly subscription to [CUGN](#), students get unlimited access to this course content. This course content replaces traditional textbooks.

When a student logs into the Grace Learning Management System, the student will be directed to the CUGN site to log in and access the content for each course. After completing the CUGN course, the student prints out the Certificate of Completion. In order to obtain a Certificate of Completion, the overall score in the course must be 70% or higher.

Once a student prints out the certificate from the CUGN site, the student uploads the certificate(s) on the Grace site and applies the new knowledge in various papers, projects, or presentations to complete the Grace portion of the course.
